as J. Flannery as he drove up Bloom-

field Avenue on Wednesday and turned

to the right into Ridgewood Avenue.

Mr. Flannery has been very "mum" since

that visit.

In view of the fact that so many peti-

tions for macadam roads have been sent

in from Glen Ridge, the property-own-

ers in that locality have deemed it exped-

ient to get together and try and settle upon

some certain streets to be given prefer-

ence over others, with the understanding

that the streets necessarily laid over this

year shall be first in order next year.

It is somewhat embarrassing to the

Town Committee to be compelled to

choose from so many petitions, particu-

larly so when their selection is cer-

tain to cause disappointment to so

many. The course proposed by the

residents of Glen Ridge will be a great

relief to the Committee.

A New Highway to Newark.

The proposed connection of Newark

Avenue in this town and Montclair

Avenue in Newark will make another

highway between Bloomfield and New-

ark, and one that will be popular as a

driveway. Montclair Avenue in Newark

has been extended westward nearly to

the canal at a point where the street-

railway bridge formerly crossed that

stream on Newark Avenue. This struc-

ture was destroyed by fire a number of

years ago, and the Board of Freeholders

have promised to rebuild the bridge if

the right-of-way through the property

adjoining can be secured.

The Fairview Improvement Associa-

tion and the Woodside Improvement

Association have been at work on the

project for some time past, and at a

meeting of the Fairview Association at

Fred. Heckel's house on Monday

night a communication was received from

the Woodside Association stating that

much progress was being made in the

matter, and the ultimate success of

the scheme was looked forward to.

A vote of thanks was tendered Town

Committeeman Hummel for his support

of E. D. Johnson for the office of Town-

ship Engineer. The Committee on the

Newark Avenue Park reported progress.

The Fire-Alarm Indicators.

The question of paying \$600 for the indicators in the buildings occupied by the Fire Department will probably come before the Town Committee at a very early date. The indicators were put in on trial by the Gamewell Fire-Alarm Company when the fire-alarm system was introduced into this town. Various opinions are held by the firemen as to the usefulness of the indicators. Some members regard them as a valuable necessity, while others deem them needless and would rather see the \$600 put to better use. The indicators have been in the houses over a year, and as yet the company has taken no steps towards asking payment for them, nor have they made any demand for rental. The company also has a bill against the town for an automatic clock put in the Truck House. It is very probable that a bill for the whole amount, \$650, will be put in at once. It will be prudent for the Committee to dispose of the matter of the indicators at once or the company may present a bill for rental. The Fire Committee, so far as is known, has never entered into any agreement to pay a rental for the indicators. It is perhaps unjust to the Gamewell Company to retain their property under such an indefinite understanding as at present exists.

Odd Fellows Will Visit Brooklyn.
Olive Branch Lodge, I. O. O. F., held a very interesting meeting on Monday night. Two new members were elected, notice was given of propositions from two more, and one candidate received the initiatory degree. All Odd Fellows in good standing are invited to join the lodge in a visit to Prospect Lodge of Brooklyn next Thursday night. The members will leave the Bloomfield Station of the D. L. & W. R. R. on the 7 P. M. train and go to Brooklyn in a body. All Odd Fellows are invited to and will find a welcome at regular meetings on Monday night.
